During the whole fermentative process, pumping over 2 times per day, using each time half of the volume contained in the vat. After the alcoholic fermentation, the cap is plunged for 30 days, and during that period, extraction of the gentle tannins is conducted, along with the malolactic fermentation and the natural stabilization of the wine.

Winemaker tasting notes:

This deep ruby red, full-bodied wine has berry fruit flavours and a beautiful balance. It's fruity, tasty, and very pleasant and elegant. João Paulo Martins; Vinhos de Portugal 2016; "Tasted in 2015. It is especially in restaurants. Blended wine from various grape varieties. The English market absorbs almost two million bottles. Good aromatic balance, the fruit is fresh and is very attractive, very capable for food and shows a lot of versatility to the table. Round and polished without hard tannins, in has a full mouth tasting, light presence of sugar and shows a good gastronomic aptitude. As wine to drink in the year is very good."
